

Total Sales By Product

Steps Followed:

1. To plot the chart for Total sales by product first I chose a Funnel chart and for that I chose Product as category data and for values I choose sales.
2. I change the title of the chart by going Format your visual option present in the visualization section and then I clicked on general click on title then click on Text box and changed the title of the chart.
3. Then I clicked on the visual then clicked on colors options and I changed the colors of the chart

Insights:

1. Paseo has the highest total sales with 33.01M of sales followed by VTT (20.51M) and Velo (18.25M).
2. Carretera has the lowest at 13.82M, which is only 41.9% of Paseo (about 58% lower).
